JOSEF J. HALDA. 1996. **The genus *Gentiana* by Josef J. Halda, Illustrated by Jarmila Haldová.** (ISBN 80-901846-6-9, hbk). Sen, Dobre. Available through: Harvy Wrightman, Rr#3, Kerwood Ontario, N0M 2B0, CANADA; Josef J. Halda, PO Box 110, Hradec Králové 2, 501 01, CZECH REPUBLIC. US\$60.00 (hbk), \$US50.00 (pbk) + US\$10 p&h. 241 pp, 300 colored paintings on 32 plates.

"The Genus *Gentiana* is the first full account of all the species of *Gentiana* written as a single book. It is a major taxonomic revision of the whole genus, with an emphasis on species. A definitive reference work, combining the information needed by botanical, horticultural, nursery, specialist, and general gardening audiences."

"Profusely illustrated by Jarmila Haldová, an exquisite rendering appears on every page. Finally you can see and learn about such elusive plants as Hebe-looking *Gentiana pachyphylla* or the most ornamental species as *G. amplicrater*, *G. grandiflora*, *G. sedifolia*, *G. delavayi*, *G. szechenyi* or *G. boissierii* which Halda has introduced to cultivation in recent years."

The contents of the book include: Introduction; Morphology; Cultivation; Propagation; Key to the subgenera; Synopsis of the Genus *Gentiana*; Sugenus *Gentiana*; Subgenus *Stylophora*; Subgenus *Otophora*; Subgenus *Pneumonanthe*; Subgenus *Newberryi*; Subgenus *Ciminalis*; Subgenus *Cruciata*; Subgenus *Phyllocalyx*; Subgenus *Frigida*; Subgenus *Monopodiae*; Subgenus *Isomeria*; Subgenus *Microsperma*; Subgenus *Stenogyne*; Subgenus *Calathianae*; Subgenus *Chondrophyllae*; Gentians hybrids and cultivars; Related genera; Species originally described as Gentians later transferred to the related genera; References; and Index.
